

MODEL42
INNOVATE. INVEST. EXTEND.

— MODEL42 x THE LONGEVITY CODE · DUBAI, UAE

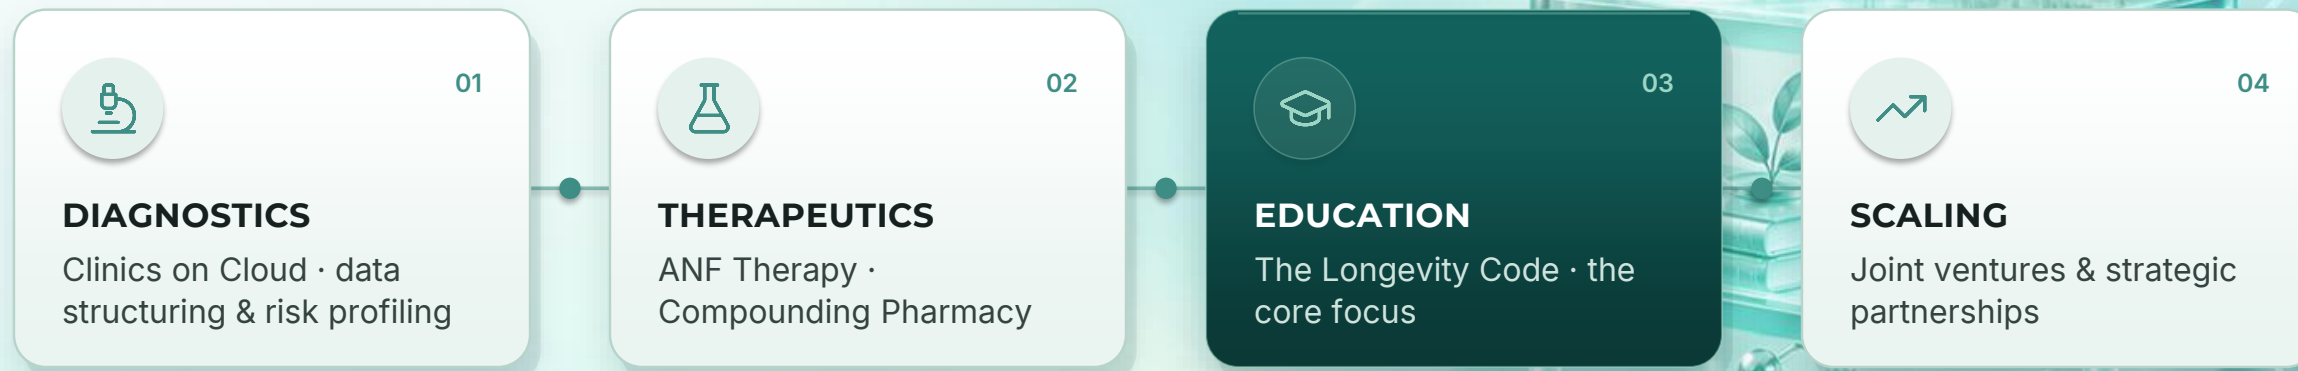

The Longevity Code™

An international educational standard in functional, preventive and regenerative medicine. Integrating cutting-edge medical science into a scalable health and longevity ecosystem.

POWERED BY

Education as a driver for scalable expansion

— STRATEGIC VALUE OF THE EDUCATIONAL LAYER

-  Model42 transforms clinical innovations into scalable institutional assets.
-  The Longevity Code is the platform's intelligence layer, connecting clinical data, protocols and specialist training.
-  A powerful medical solution cannot become a global asset without a structured execution model.
-  Professional education mitigates clinical and operational risks when new technologies enter new markets.

The problem of fragmented medical innovations

LOCALIZATION

Breakthrough technologies stay confined to single clinics or countries without an international commercialization structure.

DATA DISCONNECT

Diagnostics, therapeutic protocols and patient reassessment rarely run in one continuous feedback loop.

COMPLEX IMPLEMENTATION

Physicians lack standardized, evidence-based protocols to bring advanced longevity methods into practice.

PATIENT DEMAND

Patients no longer seek symptom management alone — they want preventive care, vitality and active longevity.

A unified global standard in longevity medicine

The Longevity Code™ is a comprehensive 12-module certification programme: cellular aging, peptide therapy, hormonal optimization and biohacking.

KNOWLEDGE

A deep scientific foundation integrating state-of-the-art research.

PROTOCOLS

Turnkey treatment algorithms, real clinical cases and practical tools.

INTERNATIONAL EXCHANGE

A consistent benchmark of clinical excellence in every new market.

A multi-tiered workforce development system

ONLINE COURSE

Self-paced learning

-  Full access to 12 pre-recorded modules
-  A library of scientific lectures and materials
-  Downloadable turnkey clinical protocols

EXECUTIVE MENTORSHIP

Deep clinical immersion

-  Live Zoom sessions and in-person workshops
-  Analysis of complex clinical cases
-  Corporate training and clinical team onboarding

MASTERCLASSES & INTENSIVES

For business leaders, investors and physicians

-  Accelerated overviews of key practical domains
-  Market trends and emerging longevity technologies
-  Commercial and investment potential of therapies

Built by practising physicians with international expertise

FUNCTIONAL & REGENERATIVE MEDICINE

Dr. Alla Zaentc

Deep clinical expertise in the biology of aging and cellular therapies

Focus: cellular senescence, hormonal optimization, metabolic health

Evidence-based preventive treatment protocols

DERMATOLOGY, AESTHETIC & REGENERATIVE MEDICINE

Dr. Ecaterina Lica

International practice in aesthetic and cellular treatments

Focus: exosomes, PRP/PRF and growth factors (GF)

Skin aging correction, aesthetic gynecology and urology

12 modules & practical specialization

12-MODULE OVERVIEW

- | | |
|--|--------------------------------|
| 01 Peptide therapy | 07 IV therapy & nutraceuticals |
| 02 Longevity science & functional medicine | 08 Nutrition in longevity |
| 03 Hormonal optimization | 09 Ozone therapy & EBOO |
| 04 Metabolic & mitochondrial health | 10 Biohacking & HBOT |
| 05 Gut health & microbiome | 11 Mental health & brain |
| 06 Inflammaging & autoimmunity | 12 Sports medicine & muscle |

CORE COMPETENCY: PEPTIDE THERAPY

Practitioners learn to design and prescribe individual peptide protocols for each patient's health goals.

In-depth analysis of 30+ therapeutic peptides

Weight & metabolism (GLP-1 agonists)

Tissue regeneration (BPC-157, Thymosin Beta-4)

Neuroprotection & cognition (Semax, Selank)

Cellular longevity (MOTS-c, Epitalon, Pinealon)

Commercialization and clinical integration

FOR PHYSICIANS

New high-value services right after the course

Years of independent research saved

A private Telegram community for case consultations

FOR CLINICS

Standardized preventive and regenerative care

Higher patient LTV through long-term programmes

Turnkey protocols for rapid team onboarding

MODEL42 SYNERGY

Priority access to Model42 Compounding Pharmacy

Integration with the Clinics on Cloud diagnostic platform

Direct entry into a global investment and medical ecosystem

International expansion via the UAE hub

SCALING PRINCIPLE

One successfully launched market creates a repeatable playbook for the next wave of expansion.

— NEXT STEPS

Your next professional horizon begins here

Become a certified expert in functional longevity medicine and join Model42's global health innovation platform.
