

— PEPTIDE PORTFOLIO · INSTITUTIONAL CATALOGUE 2026

Peptides and active compounds

Grouped by indications, formulations and potential benefits.

POWERED BY

model42.ae

A structured catalogue across eight indication areas

44

UNIQUE ACTIVES

5

COMBINATION
FORMULATIONS

49

TOTAL PRODUCTS

INDICATION FRAMEWORK

Growth, recovery & regeneration

Immune support & inflammation

Neurocognitive, mood & performance

Weight management & metabolic optimization

Sexual wellness, fertility & hormonal support

Aesthetic, skin & hair health

Longevity, mitochondrial & healthy aging

Cardiovascular & organ support

Portfolio grouping · 01 of 04

GROWTH, RECOVERY & REGENERATION

01

PEPTIDES / ACTIVES

AOD-9604 BPC-157 TB-4 TB-500
CJC-1295 Ipamorelin Sermorelin
Tesamorelin IGF-1 LR3 MGF
PEG-MGF HGH

KEY BENEFITS

- ✓ Tissue repair and healing
- ✓ Muscle growth and recovery
- ✓ GH/IGF-1 axis support
- ✓ Improved physical performance
- ✓ Lean body mass support

IMMUNE SUPPORT & INFLAMMATION

02

PEPTIDES / ACTIVES

Thymosin Alpha-1 (TA1) Thymulin
Thymogen KPV ARA-290

KEY BENEFITS

- ✓ Immune system modulation
- ✓ Anti-inflammatory support
- ✓ Infection resistance support
- ✓ Gut and tissue protection

Portfolio grouping · 02 of 04

03

NEUROCOGNITIVE, MOOD & PERFORMANCE

PEPTIDES / ACTIVES

Selank

Semax

PE-22-28

Pinealon

Dihexa

DSIP

KEY BENEFITS

- ✓ Cognitive function and focus
- ✓ Mood and anxiety support
- ✓ Neuroprotection and plasticity
- ✓ Sleep quality and regulation

04

WEIGHT MANAGEMENT & METABOLIC OPTIMIZATION

PEPTIDES / ACTIVES

Cagrilintide

5-Amino-1MQ

AOD-9604

MOTS-c

Tesamorelin

MK-677

GW-501516

KEY BENEFITS

- ✓ Appetite suppression
- ✓ Fat metabolism and weight control
- ✓ Improved insulin sensitivity
- ✓ Metabolic and endurance support
- ✓ Body composition optimization

Portfolio grouping · 03 of 04

SEXUAL WELLNESS, FERTILITY & HORMONAL SUPPORT

05

PEPTIDES / ACTIVES

Kisspeptin

PT-141 (Bremelanotide)

Oxytocin

hCG

HMG

Testagen

Prostamax

KEY BENEFITS

- ✓ Libido and sexual desire support
- ✓ Hormonal balance and regulation
- ✓ Fertility and reproductive support
- ✓ Testosterone and gonadal support
- ✓ Prostate and reproductive health

AESTHETIC, SKIN & HAIR HEALTH

06

PEPTIDES / ACTIVES

GHK-Cu

SNAP-8

MT2 (Melanotan II)

KEY BENEFITS

- ✓ Skin repair and rejuvenation
- ✓ Collagen and elastin support
- ✓ Wrinkle and expression-line support
- ✓ Hair and scalp health
- ✓ Tanning / pigmentation support

Portfolio grouping · 04 of 04

LONGEVITY, MITOCHONDRIAL & HEALTHY AGING

07

PEPTIDES / ACTIVES

Epithalon (Epitalon)

Humanin

MOTS-c

SS-31 (Elamipretide)

NAD+

ARA-290

Pinealon

KEY BENEFITS

- ✓ Mitochondrial function and energy
- ✓ Cellular protection and repair
- ✓ Anti-aging and longevity support
- ✓ Oxidative stress reduction
- ✓ Healthy aging and vitality

CARDIOVASCULAR & ORGAN SUPPORT

08

PEPTIDES / ACTIVES

Cardiogen

Cartalax

Prostamax

Testagen

Pinealon

KEY BENEFITS

- ✓ Heart and vascular support
- ✓ Joint and cartilage support
- ✓ Prostate and urogenital support
- ✓ Testicular and hormonal support
- ✓ Neuro and cognitive organ support

Five combination formulations complete the portfolio

5

COMBINATION FORMULATIONS

GLOW Peptide

BPC-157 + TB-500 + GHK-Cu

KLOW Peptide

BPC-157 + TB-500 + GHK-Cu + KPV

CJC-1295 + Ipamorelin

Two-active combination

CJC-1295 + Ipamorelin + DSIP Three-active combination

Glow Triple Peptide

BPC-157 6 mg + Thymosin Beta 9 mg + GHK-Cu 30 mg

Peptides and active compounds · 01 of 04

#	PEPTIDE / ACTIVE	BRIEF DESCRIPTION	INDICATIONS & POTENTIAL BENEFITS
1	5-Amino-1MQ	NNMT inhibitor	Metabolic support, fat metabolism, body composition
2	AOD-9604	GH fragment analog	Fat metabolism, weight management support
3	ARA-290	EPO-derived tissue-protective peptide	Neuropathy, inflammation, tissue protection
4	BPC-157	Gastric-derived repair peptide	Tendon, ligament, GI, wound and tissue repair
5	Cagrilintide	Amylin analog	Appetite control, weight management
6	Cardiogen	Bioregulatory peptide	Cardiovascular support
7	Cartalax	Bioregulatory peptide	Joint, cartilage, connective tissue support
8	CJC-1295	GHRH analog	GH/IGF-1 support, recovery, body composition
9	Dihexa	Neurogenic peptide analog	Cognitive support, neuroplasticity research
10	DSIP	Sleep-regulating peptide	Sleep quality, stress adaptation
11	Epithalon (Epitalon)	Pineal/telomerase-related peptide	Healthy aging, circadian and longevity support

Peptides and active compounds · 02 of 04

#	PEPTIDE / ACTIVE	BRIEF DESCRIPTION	INDICATIONS & POTENTIAL BENEFITS
12	GHK-Cu	Copper-binding tripeptide	Skin repair, collagen support, hair/scalp health
13	GW-501516	PPAR- δ agonist (not a peptide)	Endurance/metabolic research
14	hCG	Gonadotropin hormone	Testosterone/fertility support
15	HGH	Growth hormone	GH deficiency treatment, lean mass support
16	HMG	Gonadotropins FSH/LH	Fertility, spermatogenesis/ovulation support
17	Humanin	Mitochondrial-derived peptide	Cellular protection, metabolic and aging support
18	IGF-1 LR3	Long-acting IGF-1 analog	Muscle recovery, anabolic support
19	Ipamorelin	Ghrelin/GH secretagogue	GH pulse support, recovery, sleep
20	Kisspeptin	HPG-axis regulatory peptide	LH/testosterone/fertility signaling
21	KPV	Anti-inflammatory tripeptide	Gut, skin, immune and inflammation support
22	MGF	IGF-1 splice variant	Muscle repair and recovery

Peptides and active compounds · 03 of 04

#	PEPTIDE / ACTIVE	BRIEF DESCRIPTION	INDICATIONS & POTENTIAL BENEFITS
23	MK-677	Oral GH secretagogue (not a peptide)	GH/IGF-1 support
24	MOTS-c	Mitochondrial-derived peptide	Metabolic health, exercise and aging support
25	MT2 (Melanotan II)	Melanocortin analog	Tanning, libido support
26	NAD+	Cellular coenzyme	Energy metabolism, mitochondrial support
27	Oxytocin	Neurohypophyseal peptide hormone	Bonding, mood, sexual wellness, lactation/uterine use
28	PE-22-28	Peptide fragment	Mood and neurocognitive research
29	PEG-MGF	Pegylated MGF	Longer-acting muscle repair support
30	Pinealon	Bioregulatory peptide	Cognitive, pineal and healthy aging support
31	Prostamax	Bioregulatory peptide	Prostate support
32	PT-141 (Bremelanotide)	Melanocortin agonist	Sexual desire support
33	Selank	Anxiolytic peptide	Anxiety, mood, focus support

Peptides and active compounds · 04 of 04

#	PEPTIDE / ACTIVE	BRIEF DESCRIPTION	INDICATIONS & POTENTIAL BENEFITS
34	Semax	ACTH fragment analog	Cognition, focus, neuroprotection research
35	Sermorelin	GHRH 1-29 analog	GH stimulation, sleep, recovery
36	SNAP-8	Acetyl octapeptide	Cosmetic wrinkle and expression-line support
37	SS-31 (Elamipretide)	Mitochondrial-targeted peptide	Mitochondrial function, fatigue, aging research
38	TB-4 (Thymosin Beta-4)	Actin-binding peptide	Tissue repair, wound healing, angiogenesis
39	TB-500	TB-4 fragment/related peptide	Recovery, mobility, soft tissue support
40	Tesamorelin	GHRH analog	Visceral fat reduction (HIV lipodystrophy), GH support
41	Testagen	Bioregulatory peptide	Testicular and hormonal support
42	Thymogen	Thymic bioregulatory peptide	Immune support
43	Thymosin Alpha-1 (TA1)	Immune-modulating thymic peptide	Immune function and infection-support research
44	Thymulin	Thymic peptide hormone	Immune and endocrine modulation
